### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Denis Maloney on 01/04/06 (for canceled claims 31-34) and on 05/01/2007 (for amendments to claims 1 and 23).

The application has been amended as follows:

1. (Currently Amended) A user interface displayed on a display and produced by execution of instructions residing on a computer readable medium, the user interface for presenting travel itineraries to a user, the user interface comprising:

an itinerary region for displaying segments of travel itineraries, each travel itinerary having a corresponding value for a first travel criterion, the travel itineraries being grouped into a first set of categories based on the values of the first travel criterion; and

a filter region including a plurality of cells, each cell associated with one of the first set of categories of travel itineraries, with selecting of one of the plurality of cells in the filter region, causing the itinerary region to display only travel itineraries in the one of the first set of categories associated with the selected cell in the filter region; and

an indicator applied to any first segment of any itinerary that has a location of arrival for the first segment that is different from a location of departure for the next segment of the itinerary to indicate to the user that the itinerary has different locations of arrival and departure for the first and the next segments.

Art Unit: 2174

23. (Currently Amended) A user interface displayed on a display and produced by execution of instructions residing on a computer readable medium, the user interface for presenting travel itineraries to a user the user interface comprising:

a first region to display a first segment of an itinerary including a location of departure and a location of arrival for the first segment; and

a second region to display the next segment of the itinerary including a location of departure and a location of arrival for the next segment with the location of arrival for the first segment being different from the location of departure for the next segment and at least one of the first region and the second region is emphasized to indicate to the user that the itinerary has a different location of arrival for the first segment from the location of departure for the next segment.

Claims 31-43 are canceled.

***Allowable Subject Matter***

Claims 1-26 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art either alone or in combination doesn't teach the limitation of an indicator applied to any first segment of any itinerary that has location of arrival for the first segment that is different from a location of departure for the next segment of the itinerary to indicate to the user that the itinerary has different locations of arrival and departure for the first and the next segments in combination with the other claimed features.

Art Unit: 2174

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
